

Holiday Card Option with Tiny Prints

This holiday season, we want to offer our clients a way to share their favorite images on their holiday cards, that's why we have teamed up with Tiny Prints (a leader in the card industry). This system is a way for us to release the images directly to your Tiny Prints account to order a card for a reduced licensing fee of \$99 for up to 6 images. You may choose any image from which you have ordered 4x6 (or larger) prints.

The card will include a small attribution for our studio on the back of the card, which is part of this reduced licensing fee. You will not have access to the original image file as part of this system, but will be able to use the image/s on the card of your choice.

When you are ready to order, please email me (kellyweaver2@me.com) with your selected photos, and I will upload them into the Tiny Prints Escrow system. We will then email you a unique code for each image, which you can use in the card creation process in the "add a photo" stage to retrieve that image into your personal Tiny Prints account. Once you have retrieved the image, you can use it on any card for up to 30 days. Your card will be printed with the high resolution version of the photo, but you will not have access to that file.

Your orders will be placed using this storefront: www.tinyprints.com/storefront/kellyweaver
